PROFESSIONAL EXPERIENCE

Certification: MERN Stack Developer / Nexskill Institute

Oct 2023 - March 2025

- Successfully completed a comprehensive MERN stack development certification, covering **MongoDB, Express.js, React, and Node.js**.
- Built a dynamic MERN stack project, integrating RESTful APIs, user authentication, and state management to deliver a seamless user experience.
- Gained hands-on experience in building full-stack web applications and deploying scalable solutions.

Web Developer Intern / NextGenLearners (Remote)

July 2025 - Aug 2025

- Built and styled responsive web pages using HTML5, CSS3, and JavaScript.
- Worked on mini-projects focusing on DOM manipulation, event handling, and basic animations.
- Gained practical experience in frontend development and code debugging.

PROJECTS

Authentication System (MERN STACK Authentication Web App)

[GitHub Profile](#)

[Live View](#)

- Developed **JWT-based authentication** with **OTP** verification and secure password reset flow
- Implemented OTP-based email verification and password recovery system using **Nodemailer**

Employee Management System (Full-Stack Web Application)

[GitHub Profile](#)

[Live View](#)

- Built a full-stack employee management system using React, Vite, and Firebase.
- Admin can add/view employees, assign tasks, and track progress in real-time.
- Employees can view assigned tasks, update status, and monitor performance.

Food Ordering Web Application (React & Redux Frontend)

[GitHub Profile](#)

[Live View](#)

- Built a React-based frontend using Redux for state management.
- Features include product search, viewing products one by one, adding items to cart, and smooth cart management.
- Focused on responsive UI and efficient real-time state updates using Redux.
